

Darko Selaković *Software Engineer*

✉ darko.selakovic11@gmail.com  Darko Selakovic  darkoo59  Serbia

EDUCATION

Faculty of Technical Sciences, Bachelor's degree in Electrical and Computer Engineering 2019 – 2023

- Final paper: Comparison of open source platforms for serverless computing 
- GPA: 9.16/10.00

SKILLS

Languages — Java, Kotlin, Clojure, Python, C#, TypeScript, JavaScript

Developer Tools — Git, GitLab, Docker, Linux, Agile, PostgreSQL, MongoDB, Maven, RabbitMQ

Software/Frameworks — Spring, .NET, Flask, React, Angular, Grafana

EXPERIENCE

Citrus Systems, Middle Backend Developer Dec 2023 – present

- Developed and maintained a Kotlin + Spring Boot application, enhancing backend logic and ensuring robust performance with over 80% code coverage through comprehensive unit, integration, and E2E tests
- Led the integration of new features, resulting in an increase in application functionality and user satisfaction
- Utilized React Flow and TypeScript to create intuitive and user-friendly UI components, improving user engagement by 30% based on user feedback and analytics
- Collaborated in a team of 4 developers to design and implement scalable backend solutions, contributing to 3 out of 3 major project milestones on time and within scope
- Led end-to-end development of 5 solo projects, architecting and implementing each in Clojure, achieving 100% autonomy from planning through production
- Collaborated on diverse projects ranging from solo projects to large-scale team efforts with over 10 members, adapting to various development environments and enhancing teamwork dynamics to ensure project success by leveraging agile methodologies and effective communication, resulting in successful deliveries that met both individual and collective goals
- Communicated with clients globally to understand integration needs, deploying over 500 games across the company's websites worldwide to enhance user engagement and meet diverse market requirements
- Developing Java libraries for the company's internal use

Outlier.AI  , AI Model Training Specialist for Programming Nov 2024 – Jul 2025

- Evaluate model performance and provide insights for continuous improvement
- Provide feedback and suggestions to enhance the overall user experience of our AI-powered solutions
- Compared and evaluated AI-generated code against my own implementations across multiple programming languages (Java, Python, TypeScript, JavaScript, etc.)

Vega IT  , Internship Oct 2022 – Nov 2022

- Collaborated with a mentor using the scrum framework, participating in daily meetings to ensure alignment and progress, which led to the successful delivery of a final product that built backend services using Java and Spring Boot, optimizing data handling with PostgreSQL to support over 10,000 daily users
- Developed dynamic user interfaces with Angular and TypeScript, achieving a 40% faster page load time

Freelance Developer 2021 – 2023

- Sourced and onboarded clients from 5+ international platforms, ensuring a diverse project portfolio to expand expertise and deliver innovative solutions tailored to specific client needs
- Executed over 15 projects with technologies like Java + Spring Boot, C# + .NET, and Python + Flask, adapting quickly to each tech stack and maintaining a 100% on-time delivery rate

PROJECTS

NutriBeba Website (PHP/Laravel, TypeScript/React)  Jul 2026 – Present

Traffic Jam Web Application (Python/Flask)  2023

Book Store Web Application (Java/Spring Boot, React)  2023

Bank Web Application (Java/Spring Boot, React)  2023

Other projects (Python, Clojure, .NET, Go and more)  2017 – present

LANGUAGES

Serbian — Native tongue

English — C1

CERTIFICATES

- Communication Skills : P&G Certificate 
- Problem Solving : P&G Certificate 
- Essential Soft Skills : P&G Certificate
